Dear Potential Submitters of SOQs,

In response to a question that asked if we (TRFMA) could “provide the specific permitting needs for the Wadsworth 35% Design project:”

For the 35% design and DDR, the consultant is not responsible for submitting or obtaining any permits at this level. However, design information may be used in future permitting work so it is important to craft necessary information so that it can be used with other future analysis for 404 and a 408 permit as well as information for a CLOMR or LOMR.

Eric E. Scheetz, P.E., CFM

Professional Engineer
