**Subject: Support for Revised Flood Insurance Rate Maps for the Truckee River and Select Tributaries in Washoe County, Nevada**

To Whom It May Concern:

The City of Reno is writing this letter to declare our support for the remapping effort for the Truckee River and select tributaries that the Truckee River Flood Management Authority (TRFMA) has undertaken since 2019. We understand the area of revised Flood Insurance Rate Maps (FIRMs) extends from West Reno to Wadsworth Nevada and covers almost the entire River frontage through the City of Reno as well as some tributary area along Steamboat Creek. We are supportive of the current revised model and mapping that are being submitted to FEMA for initial review. City officials, through representation on TRFMA's Technical Advisory Committee and the overall Flood Management Authority Board, approved the original contract to fund this endeavor in March and April of 2019. The previous mapping dates back to 1984 and there are several accuracy issues with both the terrain and modeling that need to be addressed. While we support the remapping effort, we also reserve the right to review and offer suggestions for map or model revision during the review process that will ensue, both in preliminary reviews and during the 90 day review period that will occur going forward.

Please contact the City of Reno Utility Services Department if you have additional questions or concerns at (775) 334-2350.

Sincerely,

A handwritten signature in black ink that reads 'Trina Magoon'. The signature is fluid and cursive, with a long horizontal stroke at the end.

Trina Magoon, P.E.  
Utility Services Director
